

# Project Requirements

- Make a banner where the left side will be a heading and a paragraph and a button and right side will be an image.
- Heading will be typing effect with css
- Make a photo frame with name and job title
- When hovering over the frame, create four borders around the frame and add simple animation with those borders.
- Name and job title will not show by default. when hovering over the frame, it will come from the bottom of the frame and an overly color will show.
- Use #22bedd as primary color
